We offer 24/7 service, preventative maintenance, testing, inspecting, repair and refurbishment of firefighting and related vehicles:

- » Every make and model of firefighting and rescue vehicles
- » Complete mobile capability for on-site servicing and maintenance
- » Qualified service technicians
- » We supply and fit original equipment manufacturer (OEM) parts only
- » General repairs
- » Accident damage repairs
- » Chassis, engine and driveline service
- » Service of pumps, hose reels, monitors, nozzles, foam systems, DCP systems, etc.
- » Mechanical and hydraulic troubleshooting and repairs
- » Electrical troubleshooting and repairs
- » Engine and transmission diagnostics

Preventative and scheduled maintenance programmes prevent engine failures and ensure safe and reliable operations. Keep your Emergency Vehicles operationally sound. **We offer the following:**

- » Aerial and hydraulic platform testing and repairs
- » Full diagnostic reporting
- » Ground ladder servicing and certifying
- » Body and hardware service
- » Preventative maintenance contracts and programs
- » Annual emergency vehicle safety inspections
- » Refurbishment programmes to bring new life to used emergency vehicles
